**Subject:** RE: two intro sections?....and other updates

Hi Sara-

I spoke to Carl earlier and it seems like Lea began editing the intro section when, according to max.gov, he still had it "checked out". I need to incorporate Callie's comments on the intro section, so I am waiting for this to be resolved.

I will try to take a look at the comment in the statutory review section today.

I've made all of Callie's edits for BART1. She has also given me the intro section and BART2. I hope to enter those edits before I leave for vacay.

**Subject:** two intro sections?....and other updates

Hi All

Updates from me at the end of my day/week.

I think it might be good to have a short meeting Monday to talk about coordinating responses to comments going forward (I am available anytime except 8-10 when we are on a call with OGC and Aaron on the BartSections). For example, I see Lea and Carl made suggestions in the introsection today - and see we now have TWO INTRO SECTIONS (Gail F. wondering if can you figure out what is going on here, hopefully there's a way to merge these into one on max?!) I can work on responding to Lea's on Monday if you want. I won't delete any of her comment bubbles, just make text changes in track changes as still needed. Does that work for you all, or do you want to respond to all the comments first?

I have planned been to make edits to the LegalSection today and Martha's been in there most of the day. So my edits to that section to update our final decisions will come next week.

Steve, I inserted a few edits/comments on the RPSection for you.

I cleaned up and responded to all but one OGC comment in the StatutoryReview Section, Aaron, one comment for you.

Tina is checking to ensure documents referenced are in the docket or FDMS.

I also am waiting for Gail T's go-ahead (as she knows :) )to review the revised Modeling section, and also input the changes to that section that I got from Lea a couple days ago. At this point, it looks like that will happen sometime next week, as I understand we are waiting for comments from OAQPS.

Since I haven't heard anything on substantive comments from Callie (with the exception of at least one comment bubble I saw Aaron entered), I continue to understand that her edits continue to be nonsubstantive, please let me know if I'm wrong about this.....

See you all next week.

Thanks,

Sara
